I hear your heart  
Are you calling out to me  
Could it be you need a friend  
Has the pain of all this life  
Got you feeling near the end  
Can you see your not alone  
Can you tell I'm right by your side  
Though the world won't let you go  
Turn to me and you can

Hide within my wounds  
I won't let you be  
I was born  
To save you from false hope  
Take my hand my child  
Don't ever be afraid  
I have died  
So now you can live on

Time it pulls you on  
Onward to me

I see the tears  
As they're rolling down your face  
Yes I know that you're afraid  
And as long as you will live  
You're subject to the change  
Like a ship out on the sea  
You're a pawn of circumstance  
If you set your sails to me  
You can win this game of

Chance to let me in  
I will not falter  
Stand be strong  
Tomorrow's a new day  
Arm yourself with my love  
You'll never be alone  
Trust in me  
The pain will go away

Sadness drags you down

I will be around if you

Take me to your heart  
The world can't hurt you  
I've got scars on my hands  
And from my crown  
Take me to your heart  
No time won't change it  
I will lay my hands upon your love

Take me to your heart
