Here's the lyrics to Drivin' N' Cryin's PEACEMAKER:

Stormmaker give me storms that shine with me in ????

Windmaker blow my mind that shows me there's
another kind

They had me believin' that all white men could shake
my hand

and make a stand

Man m

aker make me men that take their time to live with them

Cloud maker make me clouds that spell out problems
true and loud

Dawn maker show me dawns that rise with me and
show my bones

He said we can do better than that but that who clap will
soon forget

Have you heard the changing words?

Chorus:

Peacemaker make me peace and I will be the man you
seek(repeat 5 times)

Rolling wonder...

Rolling river...

Friendmaker make me friends that stand with me unto
the end

Daymaker make me day that last as long
as I can take

Have you heard the wolf creepin' around my door while
I was sleepin'?

I figured they would be so one as to slap my blisters for
the promise

Chorus

Sam White
