Take her out son,
I know you're not sure.
Recently, you and I don't go there anymore
LOVE.
Please, I think you should forget things please, please.

It shows your age, it shows your age.
I've seen your back pain, I've seen your back pain.
It worked for me, so well for me.

Well I'm rough with your love.
I heard that you fingered, a person you split.
It shows where you came from, oh.
LOVE.
Please, I think you should forget these wings tease.

It shows your age, it shows your age.
I've seen your back pain, I've seen your back pain.
It worked for me, so well for me.
