Forget that girl, she'll only make you sad someday  
Forget that girl, she'll never make you happy  
She's in love with him, my friend  
She's in love with him

Forget that girl, she'll only bring you down again  
Forget that girl, she'll only make you lonely  
She's in love with him, my friend  
She's in love with him

There was a time when she could really love you  
When she was dreaming only of you  
But now she's thrown herself above you  
And there's nothing I can do

Forget that girl, she'll only bring you down again  
Forget that girl, she'll only make you lonely  
She's in love with him, my friend  
She's in love with him, oh yeah  
She's in love with him, yeah

Forget that girl  
(Forget that girl)  
Forget that girl  
(Forget that girl)  
Forget that girl  
(Forget that girl)  
Forget that girl  
(Forget that girl)  
Forget that girl  
(Forget that girl)
