Girl, you look mighty good to me
And I know that you've got to be
The kind of girl I could love

You've got the sweetest pair of eyes
And your kiss would be paradise
You're the kind of girl I could love

You do something to my soul
That no one's ever done
If you're looking for true love
Then let me be the one

Oh girl, deep in my soul I'm sure
And my heart has no doubt that you're
The kind of girl I could love

Hey girl, you look mighty good to me
And I know that you've got to be
The kind of girl I could love

The kind of girl I could love
The kind of girl I could love
The kind of girl I could love
