

Monkey Swallows The Universe "Statutory Rights"

Visit "[Statutory Rights](#)" on MotoLyrics.com

Breaking news is never good, take the needle from my
eye
And stack the shelves with anything, just so we don't
have nothing
Leap year babies barely age, all their friends are dead
And they sit at home with just their own joke to keep
them company

Take me walking ?cause it's a fine night
And you're still as the air
Don't be down ?cause they take almost all
But they can never take our statutory rights

So look out to the horizon, see that hill now screw your
eyes
And let's pretend we're just that close to the coast
Help me down, help me down, let's be on our way

Take me walking ?cause it's a fine night
And you're pale as that old moon
Don't be down ?cause they take almost all
But they can never take our statutory rights
