Die!

This is my life
Invasion of my privacy
Do not make my decisions
I oust myself from society
Why vote for anyone
When nothing gets done
Wasting all our time
Just for them
To get fucked

Middle Eastern peace talks
Accomplishes nothing
Wank Geneva summit
Watch stocks plummet
News fucking depressing
Nothing but foreign violence
One hand washes the other
Let them fucking suffer
Born to be played
In this game of life
Entering the world
With intention of strife
Policies, boundaries
Rules and restrictions
Keep us consumed
In stress and misfortune

Middle eastern peace talks
Accomplishes nothing
Wank Geneva summit
News fucking depressing
Nothing but foreign violence
One hand washes the other
Let them fucking suffer
