Alone at night in her grave  
Sweetly rotting away  
Her cold carcass I crave  
The feel of her skull

Waiting to be caressed  
I open the grave  
I cannot control myself  
My lust must be satisfied

Desecrated corpse  
Unearthing the bodies from below  
No one can stop me now  
As my addiction slowly grows

Lustful impulse

To copulate with the dead  
Life and death are joined  
Warm and cold flesh

Desecrated corpse  
Unearthing the bodies from below  
No one can stop me now  
As my addiction slowly grows

Rotting corpses rising from their grave  
Ready to be torn away  
I decapitate their heads  
Demon lord takes your soul!
