Mass seclusion corroding my thoughts  
Stolen memories reach out to be caught  
Brought into this world only to die  
You ask who's to blame? It is only I

Escape through pain, waiting to die  
Standing alone, unaware of the pain  
Nerve wreckage, breakdown and distraught  
Led to believe that this is no dream

Escape through pain, waiting to die

Standing alone, unaware of the pain  
Living to serve... living to slave  
Waiting to die... Waiting to kill

Now where to hide, nowhere to die  
Accumulations of borrowed lies

Living to serve... Living to slave  
Waiting to die... Wanting to kill  
Living to serve... Living to slave  
Waiting to die... Wanting to kill  
Pain!
