i still see the two of us together  
when the winter wind blows cold  
you can't get lost as long as you remember  
if you know where the highway goes

i may never find out where it is  
but i might reach you with a drive-by kiss

and its wrong to think about forever  
when you know it doesn't last  
but if you try to run away from your memory  
you can't ever drive too fast

you may never find out who it is  
but i might reach you with a drive-by kiss

and it's a sad way  
to say hello  
but if you sleep it off,  
will you let me know?

say good-bye  
but don't let me go

i may never find out where it is  
but i might reach you with a drive-by kiss  
say good-bye to part of me i miss  
with a drive-by kiss

i didn't know it would come to this  
i hope i can say what i never did  
with a drive-by kiss
