The vivian girls are the chosen ones
The vivian girls are the chosen ones
The vivian girls are the chosen ones
The vivian girls are the chosen ones
The chosen ones

Did you see them fly?
Yes it was up, over the town
Way up in the sky?
Toppling down
Toppling down
Toppling down
Toppling down

The vivian girls are the chosen ones
The vivian girls are the chosen ones
The vivian girls are the chosen ones
The vivian girls are the chosen ones
The chosen ones

Where did they come down?
Not far away, down by the bay
Was it from his touch?
No one can say
No one can say
No one can say
No one can say

The vivian girls are the chosen ones
The vivian girls are the chosen ones
The vivian girls are the chosen ones
The vivian girls are the chosen ones
The chosen ones

Standing on pedestals out in the sun
The melting continues, it's barely begun
Nobody knows what will happen one day
The ice 'round the vivian girls melts away
