#### [Verse 1]

Damn when I wanna start this rap shit without even  
asking, my passion,  
All the way in Aspen,  
So fuck that, rap that, strip that, whip that, and go  
And never ever fuck with a hoe,  
But Ima come back like I really understand the fucken  
game right,  
These people tell me how I changed upon the whole  
fame light,  
Rap when I get the flowing, strap when I get the hoes  
in, trap when I'm stuck in holding  
Resurrect myself from the light,  
Bitches talking all this shit all night,  
But I dont give a fuck let me keep on rolling it up,  
All the way in the back of the car,  
Praying that I go far, no par,  
Gotta keep fucking her right like I know I could,  
Went around the world, ended up in Europe,  
Dam to the place yall all really know,  
Everybody start slow,  
Fuck bronze, get gold, get it,  
Fuck an excuse, you weren't made to be winning.

#### [Chorus]

Everybody wanna see me fall and it's so great,  
Cause I came up and I worked so hard and everybody  
wanna hate,  
I tell them once and I tell them twice that they don't  
know my fucken fate,  
I look at hoes in the face and say you ain't worthy of a  
date.

#### [Verse 2]

Tats on your arm but they don't always really mean  
well,  
Made my way to the district having sex like hell,  
But why is the time so slow, bitches give head to go,

Running it out the door, that is my only flaw  
Until I get back on my horse and win some more like,  
I used to do back on that one High School night,  
But everybody keep it moving like, Mike in 91, Bird in  
92,  
Can't believe I almost fell for a slut like you,  
300 euros for these bitches,  
Life is good if you end up with all these fucken real  
riches,  
Man smoked the best shit in the Dam and they all still  
hate,  
2 litres of beer damn and I'm still late,  
Isn't it ironic that I made it this far,  
With barely a knuckle or 2 behind any single bar,  
So I still drink, still smoke, still give a fuck no,  
Let myself go then I really gotta say.

[Chorus x2]
