[Intro Def Manic]

They ain't heard this one before Lil Jay

[Lil Jay]

Thats right Manic, uh hh

[Hook- Lil Jay]

Now this is what I gotta do,  
Gotta make it through just like I did with you,  
And I know what its like living with these screams,  
And I know ohh.

[Def Manic]

My dreams are coming

[Verse 1- Def Manic]

Iâ'm still rapping, and clapping becoming a master,  
Pursing nightmares of a nuclear disaster,  
This babyâ's dreams in the spotlight so cast her,  
While her chances slipped up and passed her,  
I aint saving this lil hip hop trade,  
But you'll never expect me to fade,  
Addicted to the lights not covered with shade,  
This goes to show, how yaâ'll fakes really go  
How far your dreams can go, rockinâ' every show, all  
over the globe  
Now I gotta know, what your corrupt mind tryna' show  
No glimpse of doubt, this is what Iâ'm really all about,  
These words are a bit extensive at the moment,  
But I'ma use this up as its golden,  
I chose this way of life under criticism,  
Deceiving intensions now try and in vision.

[Rap Hook - Def Manic]

1, 2, 3 and to the 4,  
Iâ'ma do this like I never done before,  
Laying out with my dreams up on the floor,  
Now Lil J give emâ' some more.

[Hook- Lil Jay]

Now this is what I gotta do,  
Gotta make it through just like I did with you,

And I know what its like living with these screams,  
And now, I'm getting all my dreams.

[Verse 2 -Def Manic]

Pursuing these dreams, is the only thing that seems,  
To drown out these empty screams,  
This illustrated voice of pity,  
Conceding pressures of this big bad city,  
No life quest of norm in a lil bity,  
Reflecting the feuds of Tupac and Biggie,  
We got these new age stars or figures,  
Build like a chinchilla, for being realer,  
Blessed as the peak church pillars,  
Sicker than a mental burden filler,  
Keep it real while i rip it, got enough dough to flip it,  
Awakening the true spirit, making this like I sit back and  
kick it,  
Possessing this class sovereignty got me idolizing the  
street philosophy,  
Concerned with the matter at hand, how do I stash this  
hundred grand,  
Now I gotta see it through, before it gets to you.

[Rap Hook - Def Manic]

1, 2, 3 and to the 4,  
IÂ'ma do this like I never done before,  
Laying out with my dreams up on the floor,  
Now Lil J give emÂ' some more.

[Hook- Lil Jay]

Now this is what I gotta do,  
Gotta make it through just like I did with you,  
And I know what its like living with these screams,  
And now, I'm getting all my dreams.

[Verse 3 - Def Manic]

I contradict this position with my capacity to listen,  
Gotta learn the tricks to this trade, switch blades  
before I burn to get payed  
A new age, military sage, now what is it ya'll really  
wanna know, so Lil J,  
[Lil Jay] Come and give me something more  
[Def Manic]  
Now thatÂ's all, gotta go back to the studio.

[Rap Hook - Def Manic]

1, 2, 3 and to the 4,  
IÂ'ma do this like I never done before,  
Laying out with my dreams up on the floor,  
Now Lil J give emÂ' some more.

[Hook- Lil Jay]

Now this is what I gotta do,  
Gotta make it through just like I did with you,  
And I know what its like living with these screams,  
And I know ohh.

[Rap Hook - Def Manic]
