[Verse 1]

Ima rap like I really understand the fucken basics,
All these women got so many problems just face it,
12 year old sluts wearing make up it's cool,
Till somebody fake they age, rape em all in the pool,
And that's fucked up, it's the life I'm living I guess,
Acceptable, till they move onto the next,
Sitting here in the class thinking bout making this move
fast,
Tryna leave my situation way in the past,
Generation got me hoping for the best,
Fuck the next test do that shit just to impress, I finna
rest
And Ima always know what the fuck we doing right,
And Ima show it on the best night,
The only girl at prom to ever have her dress tight,
Became an alcoholic, and I always knew that you grew
up without a dad,
And I feel bad for real,
Dont ever ever feel that Ima conceal that fact,
You were my girl and I'll never ever take that back.

[Chorus]

[Verse 2]

Came back when you were afraid of me,
My lil drunken rage made it hard to clearly see,
That I, fucked up and for once it was really better,
That you never got to see this side of me and it's
clever,
That you turned your back on me from day one,
I guess I lost the situation, you had really won,
We only get one chance to make the right decision in
life,
You made a mistake, I made one going into that fight,
I won but shits been getting worst every single time,
And I hate to do this but I really feel inclined,
But I guess you don't care bout me anymore,
And that;s all right with me, if its alright with you,

We gone get through it all, no matter who falls,
But I hope you be so happy I'm sure,
And that's the only way,
That we can ever live apart for the rest of our days,
I'll tell you right now everything'll be OK.
