[Hook]

I thought I had it all together,
But I was led astray, the day you walked away,
You were the clock that was ticking in my home,
Changed my state of mind, love so hard to find

[Verse 1]

Check my crib with the baddest pool,
And these bitches wanna be up in my room,
Suck me off on a summer night,
Took some pills not really feeling right,
Get her to the crib, fuck all night,
Jumped out the window in all fright,
Taking these shots 4 times a day,
Life's a party where just here to stay,
And anybody that says otherwise,
You can just stay out like the other guys,
We donâ€™t really give a fuck at all,
Catching hot drunk bitches when they always fall,
Donâ€™t drink beer so I roll it up,
Get me spirits in the whole damn cup,
After wards let's take the whole club,
Broke as fuck so I can't spend much, C'mon,
Just when I thought it was all cool,
Your Mom caught me out like a damn fool,
And now I gotta clean my whole home,
Really hard to find my home phone,
Make tunes while we really high,
Have fun, we young, watch time fly,
Nobody ever really liked that shit,
So Ima be nice and make you my bitch.

[Chorus]

Your wish is my command,
Baby won't you understand,
Wish is my command,
Baby won't you understand.

[Verse 2]

Started out wit pre drinks and Kush,

Ended up with big white girls to smoosh,
Talked corny but it still worked,
Ended up getting my big dick jerked,
18 is the best age,
Just take a lil leaf out my fucken page,
I've been around and I get it done,
When police catch you, it ain't no fun,
So donâ€™t ever drink and drive just
Smoke and fly, thatâ€™s the best advice you'll ever
hear,
Gotta sit back now with the messege clear,
Do drugs, fuck bitches, never ever fear,
RIP ODB man, knew how to party,
Always stay on tune Snoop's "Lodi Dodi",
Gotta get that cheap lil bottle of 40,
Everybody else just wanna be like me,
No, not cocky but my parties ain't never free,
Just wanna get on TV,
Give out a lot of shirts for free,
City lights make everything that much easy,
Just wanna make an impact like the Yeezy,
Make money on stage, get fucked up later,
Nobody is the new Hip Hop savior,
Just shut up and sip, suck my dick on back stage,
Chill back, have a good time never rage.

[Chorus]
