Chorus:

We had storms that...
But the real niggas bounce back, yeah
The real niggas bounce back, yeah!
Yeah, you feel me the hell and back, oh
You take airs and fell but those slack, yeah
What? Cause real niggas bounce back, yeah
My real women bounce back, yeah
Yeah, you feel me the hell and back, oh

..trying to feel, and never felt a track
I got a never... of faith that I never die
And every boss takes a boss, but it's how they react
Cause got a man in every position, we've seen..
It's a fact! I was awake today, thinking like Dr. Dree
I just gotta be successful, so I gotta make a way
Make a way, yeah, whatever it takes to do it
Make a plan, make a move, never make excuses
Fuck sitting like a plan, and half life is hard
Wishing I go my way, and I just come back twice as
hard
Ain't like the cause... from the dead
Show me some shit around, so nigga pay some respect
Nobody come to my door, about to hand me a check
I ... have it all, I ain't prepared for less
Man waste all his time, but time waste on no man
So get your ass outhere grinding, future lies in your
hand
I'm saying:

Chorus:

We had storms that...
But the real niggas bounce back, yeah
The real niggas bounce back, yeah!
Yeah, you feel me the hell and back, oh
You take airs and fell but those slack, yeah
What? Cause real niggas bounce back, yeah
My real women bounce back, yeah
Yeah, you feel me the hell and back, oh

Yeah, young man had his parents worried

Cause he walked around head down looking all discouraged
Chose the wrong path, but now he lost like a tourist
But God has His GPS, could fix that in a hurry
Vision got a little blurry, chose streets over the...
So dropped out and got shot instead of bowling every week
It's nice spending Saturdays trying to get that...
Week days 9 to 5 so we can satisfy...
Instead of sleeping in the gym training
Cause he gonna die before he give upon that shitty...
A year later junior college is the place he playing
They got recruited for a ride, fuck a college payment
..he finally get to show her where...
She used to watch Jerry.. like it might be me
And he never gave up, that's what I like to see!

Chorus:

We had storms that...
But the real niggas bounce back, yeah
The real niggas bounce back, yeah!
Yeah, you feel me the hell and back, oh
You take airs and fell but those slack, yeah
What? Cause real niggas bounce back, yeah
My real women bounce back, yeah
Yeah, you feel me the hell and back, oh

Uh, he talked you in to let him take the condom off
You talked the man and not pulling out, and now you're lost
In his world with a girl, and no daddy by
No matter by her diapers, bottles or pacifiers
Had abortions before, but didn't learn your lesson
So there you were first year college and you're pregnant
Your better kept you on a road, better a yet a new shit
Skipped town, college... and you gotta let loose
Had you for real plans and poof...
Cause your life ain't about you anymore, and keep hoping
Your heart is broke, but outthere is a man
Who could heal a ...as much as he can
And... from your daughter's momma
Got you loving...
Study hard and... that stage in Atlanta
Doing good and moving on your baby daddy,
congrats!
