We live in caves  
They're full of smoke  
And we're suffocating

In this dead sea land  
I suffocate my hands  
I have no space to move  
I have no way to learn

It leaves a belly full of salt  
I have a bad taste in my mouth  
And I don't understand it  
Why should I understand it

We live in caves

They're full of smoke  
And we're suffocating

In this underground  
We have no space to drown  
I have no regrets  
This isn't finished yet

I have a belly full of salt  
It leaves a bad taste in my mouth  
And I don't understand it  
Why should I understand it
