As your life becomes a frozen overweight  
I don't need to know you've been on Novocain  
I don't want to be a frozen over kid  
I don't really care  
Send your lies back to someone else  
Tell it all to someone who cares  
As the blind become the ones who lead the way  
I don't need to know we're walking off a cliff  
I don't need to be a frozen over bird  
I don't really care  
Send your lies back to someone else  
Tell it all to someone who cares  
Hada, hidu-hada  
Send your lies back to someone else  
Tell it all to someone who cares
