I was looking at the world  
Thinking of the girl  
Cars were coming past in hordes  
Racing onto more

I'm lonely and don't know why  
It's raining, it's in my eye

This body is cold and dry

I have said enough for you  
Said enough for me  
If I was waiting in the park

Could you stay til 3?

It's only a day away  
It's only a day away

This body is cold and dry

If I'm waiting, I'm standing still

This body is cold and dry
