"I Fell Deep"

Visit "[I Fell Deep](#)" on MotoLyrics.com

I fell deep, through the holes of your eyes
And what I found resembles dollar signs
The kind of hell I'm in ain't enough to keep me down
The kind of hell I'm in just ain't enough
Just ain't enough to keep me down

Still I cry and I cry and I cry
Cause there is no turning back
I said I cry and I cry and I cry
Cause there is no turning back

What's this that you have
You can't expect for us to raise a finger for no cash
Oh no oh
So take this hall, turn to the left and follow the signs
Find out what we're not supposed to know
Those doors are locked from the outside
Don't let that stop you from busting out
