Fists up in our faces
How did we end up here
Standing in all these lines
Don't you know who I am?

I hang out
With all the parias
Everyone is almost done
With me

This will be our name
Yeah this will be our name
So listen the buck stops here
Or I'm gonna loose it now

M.A.L. is that too personal?
Give me an M.A.L. we're international

I hang out

With all the paraias
Everyone is almost done
With me

Ooh I hang out
With the parias
Everyone has had their fun
With me

But the world is reallly gonna love you
The world is reallly gonna love you (3x)

All promises
Just like I did

Well the world is reallly gonna love you
The world is reallly gonna love you (3x)
The world loves you
