What we gonna do about us?
What we gonna do about us?
What we gonna do about us?
What, what, what, what, what

All this time you were standing in front of my face
Didn't matter 'cause I knew what it was
You around me made me feel that way

We used to be good friends
But some good things come to an end
And maybe that's when true love can begin
And go all the way, yeah, oh yeah yeah yeah

Baby, never thought the day would come
Tired of being too young
Where's this feeling coming from
Like the way I'm feeling now

Never thought that this would be
It's been bothering me
Baby, tell me can we be together forever?

Tell me what we gonna do about us?
Let me know if this is real love
Let me know if I've found the one
Are you standing right here, baby?

Tell me what we gonna do about us?
Let me know if this is real love
Let me know if I've found the one
Are you standing right here, baby?

What we gonna do?
Now you know how I feel about you
Think is time you made up your mind
'Cause I've already made up mine

Oh, it won't be long
'Cause right now you can do me no wrong
'Cause I like what I see, I know what I like
You tell me right now

Baby, what's it gonna be, oh yeah

Baby, never thought the day would come
Tired of being too young
Where's this feeling coming from
Like the way I'm feeling now

Never thought that this would be
It's been bothering me
Baby, tell me can we be together forever?

Tell me what we gonna do about us?
Let me know if this is real love
Let me know if I've found the one
Are you standing right here, baby?

Tell me what we gonna do about us?
Let me know if this is real love
Let me know if I've found the one
Are you standing right here, baby?

When I first laid eyes on you
All my dreams had just come true
And I never imagined what love can really be about
Who ever knew you'd be the one
Where did all these feelings come from
And I think that we have a lot of things to talk about

Tell me what we gonna do about us?
Let me know if this is real love
Let me know if I've found the one
Are you standing right here, baby?

Tell me what we gonna do about us?
Let me know if this is real love
Let me know if I've found the one
Are you standing right here, baby?

Tell me what we gonna do about us?
Let me know if this is real love
Let me know if I've found the one
Are you standing right here, baby?

Tell me what we gonna do about us?
Let me know if this is real love
Let me know if I've found the one
