Sweet sweet Loretta  
You know I love you better  
Than any one of those other guys  
Who look at you with sparklin' eyes

Sweet sweet Loretta  
Our love will last forever  
Just as long as you stay by my side  
I'll be so happy for the rest of my life

When the kids all go to the rock after school  
and we're really on our own  
You look at me , ooh, ooh  
You never ever alone me alone

(Repeat Verse 1)

When the boys ride by and they joke us around  
And we're walking side by side  
You look at me , whoa, whoa  
You tell them I'm your onlu guy

(Repeat verse 1)
