Psychopathic killer out on the street  
Killing for pleasure is what he needs  
In the name of Allah he does his crime  
You can't hide there is no time

You can't control your muscles or brain  
The gas controls you, driving you insane  
Now you're moving spastically around  
Your legs can't bear you, you're falling on the ground

Your eyes are burning in your head  
Spontaneous diarrhoea is what you get  
Blood is flowing out of your ear  
There is no hope, the end is near

Psychopathic killer out on the street  
Killing for pleasure is what he needs  
In the name of Allah he does his crime  
You can't hide there is no time

Chemical gas is his favourite game  
You can't smell it, no one to blame  
When you notice it, it's too late  
The gas is working, the crime is made

Breathe the air with deadly gas  
Your eyes are tearing, what a mess  
Gasping for air, your lungs burn

Dying process has begun, it can't turn

Your eyes are burning in your head  
Spontaneous diarrhoea is what you get  
Blood is flowing out of your ear  
There is no hope, the end is near

You can't control your muscles or brain  
The gas controls you, driving you insane  
Now you're moving spastically around  
Your legs can't bear you, you're falling on the ground

Your eyes are burning in your head

Spontaneous diarrhoea is what you get  
Blood is flowing out of your ear  
There is no hope, the end is near

Psychopathic killer out on the street  
Killing for pleasure is what he needs  
In the name of Allah he does his crime  
You can't hide there is no time
