Fate, has wetted your soul  
Chance opened you blood flow  
Lusts push me into you.  
Come on, now our time has past.

Show me your hand if you stand with me  
Show me your eyes if you look at me  
Show me your scream if you scream with me

Law is a class privileges  
For own up herd instincts  
We are aliens here.  
Come on, now our time has lost.

Show me your hand if you stand with me

Show me your eyes if you look at me  
Show me your scream if you scream with me

Pleasure to cause misery  
Mind dreaming of emptiness  
Fake right from the heart  
We've lost the everlasting time.

Show me your hand if you stand with me  
Show me your eyes if you look at me  
Show me your scream if you scream with me
