Time again to press out the pain
I know, you need the money
But I don't give a shit.
Nearby walls, and all of street corners
Somebody will find you,
And will has pay for it.

Forever
She is this word
She is only this word
The slave to this world
She is only the whore
She is only the whore
Like never before
She is slave to this world
But she's queen of this world
Future is the ghost, believe in the lost
I know your destiny
And want you'll see
Tray to say no. I'll tear up your body
I got the money?
I think you guess what I mean!

Forever
She is this word
She is only this word
The slave to this world
She is only the whore
She is only the whore
Like never before
She is slave to this world
But she's queen of this world
