I failed to recieve the messege
I failed to recieve the thought
When life wasn't there for me
You where all I had

oh... tell me that i didn't fail
That I've got what I need and thats just it
I don't really need... I don't really need
You at all.. For sure..
I really , really don't need you anymore!

What, can't you see ? You were neve meant for me
Why ? Why do you turn against the thought that could
be
Just what you want to see.. This is me. This is really me
YEEEEAAHHH !

Say, everytime I see you passing by
I see hope in your eyes. I see faith in your thoughts
And if you know what I mean
See me the way I really feel
Say I failed once again to succed

What, can't you see ? You were neve meant for me
Why ? Why do you turn against the thought that could
be
Just what you want to see.. This is me. This is really me
YEEEEAAHHH !
