"Corona Of The Sun"

I am the corona of the sun,
The ferocious wings of light
That burn your soul eternally.
Fear me for I am the last who'll stand
If mankind awaits it's very end.
I am the corona of the sun,
The ferocious wings of death.
I send my rays to burn your skin
And what remains is death...
Just death.
I am the corona of the sun,
The ferocious wings of fury.
If the universe collapses
And my journey takes it's new route
I leave this pathetic mess of time
And you alone
In your ignorance.
I am the corona of the sun,
The ferocious wings of hate.
