It's like I roll up in the club on a Friday
Got my girls fuel-ed up and on the runway
Looking hot, gelled up like
Get up, get up we all here to go crazy
Run a check a little window shopping
Later on by the bar we'll be rocking
When we get up on the floor
This is how we goes, we all point yo

(Boom boom) my flow, my show
(Boom boom) this is how enough the bass rolls
Everybody good to go
(Get your back up of the wall) this is to all my girls from
around the way
(Get up) let me see you do that dance
If you wanna party and you're here to stay
(Get up) let me see you do that dance
To all my fellaz who just here to play
(Get up) let me see you do that dance
Zippin of me like they just got pained
(Get up) let me see you do that dance

It's getting so hot (my ring a bling)
That a chick a little here up the thing
Got my skirt reached up like (whoo)
Come on, come on if you wanna get naughty
All the fellaz in the club with their bling bling
Don't you stand here grab a girl bringin' in
When we get up to the floor
This is how we goes we all point y'all (boom, boom)

My flow, my show
This is how enough the bass rolls
Everybody good to go
(Get your back up of the wall) this is to all my girls from
around the way
(Get up) let me see you do that dance
If you wanna party and you're here to stay
(Get up) let me see you do that dance
To all my fellaz who just here to play
(Get up) let me see you do that dance

Zippin' of me like they just got pained
(Get up) let me see you do that

Don't act like you don't know it
Boy the beat's so how it's glowin'
And I know you want to show it
If you're with me just say hell yeah!

This is to all my girls from around the way
(Get up) let me see you do that dance
If you're here to party and you're here to stay
(Get up) let me see you do that dance
To all my fellaz who just wanna play
(Get up) let me see you do that dance
If you wanna party and you're here to stay
(Get up) let me see you do that dance
To all my girls who just wanna play
(Get up) let me see you do that dance
To all my fellaz who just wanna to play
(Get up) let me see you do that dance
To all my fellaz who just here to stay
(Get up) let me see you do that dance
Zippin' up me like they just got flamed
(Get up) let me see you do that dance
(Boom boom)
