Pretty Baby with the blue Jeans on  
You've been starin' at me all night long  
I know you want it and you know it's wrong  
But you don't worry about a thing, do ya

I feel you sweating me from over there  
I see this girl you're with but you don't care  
Acting like I'm shy but Boy you best beware  
I can light your match and start a fire in here

I know you want it  
I know you need it  
And how I'm feeling  
I really really really wanna  
Strike the match strike strike the match  
Strike the match strike strike your match

I know you want it  
I know you need it  
And how I'm feeling  
I really really really wanna  
Strike the match strike strike the match  
Strike the match strike strike your...

Now I don't mind if we Doecee Doe  
Do a little dance to service your ego  
But I ain't tryin to take it out that door  
You gotta tell your girl to leave

Don't mean to interrupt a perfect date  
But I need a man who only spins one plate  
Flames are getting higher and they just won't wait  
Boy I know you're thirsty come and get your milkshake

I know you want it  
I know you need it  
And how I'm feeling  
I really really really wanna  
Strike the match strike strike the match  
Strike the match strike strike your match

I know you want it  
I know you need it  
And how I'm feeling  
I really really really wanna  
Strike the match strike strike the match  
Strike the match strike strike your...

[4x] The match...  
Strike strike the match...

I know you want it  
I know you need it  
And how I'm feeling  
I really really really wanna  
Strike the match strike strike the match  
Strike the match strike strike your match

I know you want it  
I know you need it  
And how I'm feeling  
I really really really wanna  
Strike the match strike strike the match  
Strike the match strike strike your...
