Is it love that you're after?
Don't ever tell you anything?
That's not love, that's confusion
Don't you ever find out anything?
Is it honesty that you're after?
Don't you have it questioning?
That's not honesty, that's delusion
Will you ever find out anything?

Believe me
Believe everything
Believe me
Believe anything (reapeat)

Is it love that you're wanting?
Don't ever tell you anything?
That's not love, that's confusion
Will you ever learn anything?
Is it answers that you're wanting?
Don't you ever find out anything?
Is it anything that you're wanting?
Oh everything

Believe me
Believe everything
Believe me
Believe anything (x8)

Belief
Belief
Belief
Just believe what the hell you like
