Look at that

VERSE

Got the looks, got the styles, everyone next to
her, is feeling so proud.

Got a smile with those eyes, like dominos, they
can't hold back.

Walks on by, heads turn wide, somebody's jealousy's
gonna hit back.

Rumors say, don't you care, no matter what they
say, gives her free press.

CHORUS

Look at that, so use to it, look at that, just shines to
it, look at that, was born to it, look at that, was made for it

VERSE

College grad, she got charm, she'll make the best of it, i
have no doubt.

And what grace, knows her place, all want a part of
her, if that's the case.

Gets invites, she's world class, no need for a visa, she got
a pass.

More than one, love she has, she can't keep track of
them, they wear name tags.

CHORUS

Look at that, so use to it, look at that, just shines to
it, look at that, was born to it, look at that, was made for it

VERSE

Got the looks, got the style, what more can she ask
for, having all that.

Got a smile, with those eyes, falling like dominos, they
can't hold back.

CHORUS

Look at that, so use to it, look at that, just shines to
it, look at that, was born to it, look at that, was made for it
