Morning light,passing by

VERSE

Without a warning,i'm off and running,don't want to
tangle up,i ain't just ready.

Packing my bags,nothing much,quick toast and
coffee,i got it all,my tooth brush,its all behind me

CHORUS

You won't see me in the morning light.

You'll just know me as someone passing by.

You'll catch on when i'm way out of sight.

VERSE

I was invited,to stay the night in,no one is home
tonight,i felt excited.

In the garage,heard the car,the front door open,
grabed all my cloths,out the back,just when the light
switch

CHORUS

You won't see me in the morning light.

You'll just know me as someone passing by.

You'll catch on when i'm way out of sight.

VERSE

Looking for some fling,we both can use it,
music and dim the light,doing the night shift.

The gun when off,you said hone,i felt the nite stick,we
should move in,what to think,lets
get some nite sleep

CHORUS

You won't see me in the morning light.

You'll just know me as someone passing by.

You'll catch on when i'm way out of sight.

ENDING

Hello goodbye,feelings don't lie

I live my life,the way i like
