Tag along

VERSE

Twenty four six one, party's here on line.
Spicy juicy hot, burning up inside.
Going all the way, sleepless night, DSA
Going all the way, push my luck, what's out there.
Body scent right stuff, tag and tag along
Know the way to strut, tag and tag along
Laying on the charm, tag and tag along
Tribal chant love joy, tag and tag along

CHORUS

Dance into a trance, taking my chance
can i get that from you.
Dance holding your glance, finding romance
can i get that from you

VERSE

Mingle chat small talk, smiles and laughs impulse
Flirt and touch enjoy, body moves dance floor.
Going all the way, sleepless night, DSA
Going all the way, push my luck, what's out there.
Body scent right stuff, tag and tag along
Know the way to strut, tag and tag along
Laying on the charm, tag and tag along
Tribal chant love joy, tag and tag along

CHORUS

Dance into a trance, taking my chance
can i get that from you.
Dance holding your glance, finding romance
can i get that from you
