Get back on it Get Uhhuh - No falling asleep now
Get back on it Get Uhhuh - You need to be saying
something that you really ???
Get back on it Get Uhhuh
Get back on it Get Uhhuh
After Making Love
Baby there must be conversation
After Making Love
Baby there must be conversation
STROPHE 1:
I need to have Answers to my questions boy
Please make it quick
I don't really wanna go down this road
without knowing you well
There is no doubt, you're the kind of guy I like
I need to know I can be with you physically and mentally
too
so take it slow before you take it all out - I wanna know
for sure
REFRAIN:
After Making Love
Baby there must be conversation - Can I talk with you
boy?
After Making Love
Baby there must be conversation - Can I talk with you
boy?
After Making Love
Baby there must be conversation - Can you handle it?
After Making Love
Baby there must be conversation - Oh what are we
gonna do?
BRIDGE:
Get back on it Get
Get back on it Get
Get back on it Get
Get Get Get Get Get Get....
STROPHE 2:
From one to ten tell me how you rate yourself
Ain't got no time for a minute man who don't
understand what to do
talking is cheap, baby did it so precious

Just making sure, when the time comes you're fit
enough to thrill this girl
So take your time before you take it all out
I wanna know for sure
