Gin and tonic lies
Giant red warning signs
Wanna put yiu in a rocket
So you're a long, long way from here

You're not thinking wise
I'm not thinking anything nice
Don't you come around here no more (more)
Coz you've been sorry 8,9,10 times before

It's a waste of time no point in trying to make it up, oh
boy
Your lips start talking, you think you know what well, ah
wella...
You and me - no never
Then you get all reckless 'coz I'm not gonna drop, oh
so you think
I'm gonna lay down and let you take another shot well,
oh wella
You and me - no never

Bitter lemon smile
Awful good at acting wild
I could show you how to do it
But then I might have to care
Baby I don't care
Words don't take me anywhere
Oh, don't you come around here no more
'coz I've been sorry 8,9,10 times before

It's a waste of time no point in trying to make it up, oh
boy
Your lips start talking, you think you know what well, ah
wella...
You and me - no never
Then you get all reckless 'coz I'm not gonna drop, oh
so you think
I'm gonna lay down and let you take another shot well,
oh wella
You and me - no never

Boy stop

Working on me I'm not (not)
Intersted in your attempt
To make me over again

Don't waste time
There's no point
Make it up
Don't you try
Lay it down
Take a shot
You and me
No no no never again

It's a waste of time no point in trying to make it up, oh
boy
Your lips start talking, you think you know what well, ah
wella...
You and me - no never
Then you get all reckless 'coz I'm not gonna drop, oh
so you think
I'm gonna lay down and let you take another shot well,
oh wella
You and me - no never
