Looking in your eyes for signs
Got my full attention
Tell me you can read my mind
I'm not gonna question

Tell me fortune
Time and again I've heard
He say - she say
I don't wanna know

Show devotion
Don't say another word
I care more for - the sensual

Tip toe
Time to come over
Swing low
Keep undercover
Pee po
Time to come over here

Never have I felt so high
Such a strong connection
Feel no need to justify
Giving my affection

Like an ocean
Gentle carressing waves sweep me over
Take my breath away

Every motion
Can't find the words to say
So much for the sensual
