Stick in the head, this I know
My sanity no longer holds
Screaming as you're tied to the bed
Futile to resist you're soon be dead
Yea baby I like a little fight
Pound out your teeth so you can't bit
My dick in your mouth tears in your eyes
My cum and your blood seeps out the sides
I'm not finished though you though you think I am
I am not learning without trophy in hand
So many other women I have collected
Your pussy I carefully dissect
Your ever oral vases my dick will infect
Run my scalpel over pussy
Mouth is watering your mice and juice
I love it when your eyes get wide
My knife plunged deep inside
Hold your vagina in my hand and
Fuck it while you're alive
Ejaculating to the tears you cry
