You lead a life of celibacy  
For your love a deity  
Your hymen kept in tact just for me  
I can't wait to hear you scream  
Raped with a crucifix  
Your services help to spread his lie  
So I'll help to spread your legs  
The lies ravage my brain like I'll ravage your cunt  
This pain I'm inflicting is a must  
Stripped from the cloth and tied to the bed  
This crucifix hangs above our heads  
Tear down the cross with hate and disgust  
In your vagina I must thrust  
Scream gods name as I ram it in  
Ripping and tearing through your hymen  
A statue of Christ crucified  
Cuts through your cunt for the first and last time  
You sure lost your faith real fast  
As I pull your entails out of your ass  
Now you scream in pain, in my pants I just came  
Now you know first hand of sin  
With the crucifix deep with in  
Now you scream to the sky why God why
