electric century, chaos born, binary souls -  
corridors of static impulse fuel the forge -  
vast reserves of hunger never satisfied -  
in ecstasy we sate our thirst on white noise -  
renewal of mankind impends -  
we cast off the weight of our flesh -  
adrift in the ocean of light -  
selfless and satisfied -  
cast off the weight of our flesh -  
cast off the weight of our sanity -  
castrate your neighbor in the need to feed -  
gluttonous vampiric entity -

mass upgrade, product of oppression -  
a grand grim destruction of value -  
renewal of mankind inflicts -  
we cast off the weight of our skin -  
adrift in the ocean of One -  
selfless and satisfied -  
cast off the weight of our flesh -  
cast off the weight of our sanity -  
for One - electric century -  
we cast off the weight of the world -  
existence in streams of sound -  
set course through myriad galaxies -  
to seek the new feeding ground
