Dark dark everywhere no light to see
Wondering on the earth where could you be
Whatever were the stuff that made you flee
Wondering on the earth where could you be
How can we recall those past moments
When we spent together dollars and cents
Now I have money but not you with me
Wondering on the earth where could you be
Dark dark everywhere no light to see
Wondering on the earth where could you be
Whatever were the stuff that made you flee
Wondering on the earth where could you be
Life ours was a lyric of pleasure
Now I want to die my dear
What the hell this life is to me
Wondering on the earth where could you be
Dark dark everywhere no light to see
Wondering on the earth where could you be
Whatever were the stuff that made you flee
Wondering on the earth where could you be
