They follow the forgotten like they promised me so often Moving fingers, charging hymns to other gods

Complicated missions, covered convalescing structures

Mountains hidden inside more unspoken words

Chimes unearthly bells, before the reason we could never tell

A secret simply liberates the finish

Claustrophobic empty and competing to surround you Asking, ?Do you want to hear about the damage??

Do you want to hear about the damage? Do you want to hear about the damage? Do you want to hear about the damage? Do you want to hear about the damage?

Do you want to hear about the damage? Do you want to hear about the damage? Do you want to hear about the damage? Do you want to hear about the damage?

Do you want to hear about the damage? Do you want to hear about the damage? Do you want to hear about the damage?
