i did the best  
found out that sometimes people fail  
and it's your turn  
promise not to listen with my heart

these days  
it's time like this i wish you couldn't talk now  
i hope 'cause i don't want to think i'd sue you all now

left stranded  
miles away from simple love and fear  
eyes closed  
shows through the punches in the door

these days  
it's time like this i wish you couldn't talk and  
i hope 'cause i don't want to think i'd sue you all now

no you won't see it in there  
no you won't see it in their eyes  
no you won't see it in their eyes

i did the best  
found out that sometimes people fail  
and it's your turn  
promise not to listen with my heart
