Bad bills and cherry bombs are falling out of my head,
I'm sitting before you, but I'm dead,
Oh,
You got something I want, now honey - but it ain't what I
need,
Just show the doctor.. let it bleed,
I'm sick of my own shit darlin, I can't take no more,
Drag me out of my coma to floor.

I'm all out of nothing, there's nothing today,
A burnt out magician with nothing to say.

I've got my pick of the floppers, that's right,
Hangin' out at the store,
But they ain't got a heartbeat,
Gimme more,
Yeah, yeah,
I'm sick off the bullshit, baby, I won't take no more,
Drag me out of my coma to the floor.

I'm all out of nothing, there's nothing today,

A burnt out magician, with nothing to say,
Who wants a miracle? Who wants to know?
I'm all of nothing with nowhere to go.

The storm coming from miles away will be much
different than yesterday,
Call out, baby, and call out loud,
Your head's too cool to get lost in the crowd.

I'm sick of the bullshit, baby,
I can't take no more,
Drag me out of my coma to the floor.

I'm all out of nothing, there's nothing today,
A burnt out magician, with nothing to say,
Who wants a miracle? Who wants to know?
I'm all of nothing with nowhere to go.
