I can see by the hole in your head that you wanna be  
friends  
You're the right one baby

I can tell by the moon in your eyes that you've loved by  
the tribe  
You're the right one baby

Hook you up to the coil of the one who makes time with  
the sun  
And who keeps us pumping  
See your mind on the hood of my car, and forever in  
power  
As the world keeps dumping down

We are the only ones

Put the earth in the crook of your arm  
Tease it and charm it and watch life spray everywhere

I have something more cosmic in mind  
It's a warpage of time and it's bliss for everyone

Hook you up to the coil of the one who makes time with  
the sun  
And who keeps us pumping  
See your mind on the hood of my car, and forever in  
power  
As the worlds keeps dumping down

We are the only ones  
Oh yeah  
We are the only ones  
What can I say  
What can I say  
What can I say  
What can I say

We are all here my friend  
All dogged and spaced but all so beautiful  
We burn that mountain down  
And always pump for peace when possible

We bite ourselves and bite our dogs  
And stretch the flesh unmovable  
We are all here my friend  
Alive and spaced but all so beautiful

We are all here my friends  
All dead and spaced but all so beautiful  
We burn that mountain down  
And always pump for peace when possible  
We bite ourselves and bite our dogs  
And stretch the flesh unmovable  
We are all here my friends  
Alive and spaced but all so beautiful
