I'm Calling You  
I'm Calling You  
Can you explain what you wanna do?  
How was your day?  
How was your day?  
Did you think of me, because I thought of you  
Well, we sure picked a crazy way  
I'm living your night and you my day  
The world is dead  
The world is dead  
What crazy shit is inside your head?  
Why can't we play?  
Why can't we play?  
Your thoughts get dark when you're far away  
And no, I won't get out of bed  
If you keep hauling out your dead  
I watch you frown and I watch you shake  
And baby, that's all I can take

What kind of monsters have we made?  
Our minds have blackened out the sun  
We must remember what is real  
Oh, please, let's have our love again

What kind of monsters have we made?  
Our minds have blackened out the sun  
We must remember what is real  
Oh, please, let's have our love again

The world is dead  
The world is dead  
What crazy shit is inside your head?  
Why can't we play?  
Why can't we play?  
Our thoughts get dark when you're far away
