I can have my cherries and you can have your real  
And we can screw in lava till the Gods lick at our heels  
We were born in oil a million years ago  
And we can push the buttons of the come that makes  
us go

Makes us go, makes us go, makes us go  
Makes us go, makes us go, makes us go  
Makes us go, makes us go, makes us

When I spoke with Saturn, he told me I was gone  
But I can't lick eruption when my pulls  
Tells me it's strong, there's a tiny little monkey  
He lives inside my head he whispers on your mind  
In sleeps and tucks you into bed

In your bed, in your bed, in your bed  
In your bed, in your bed, in your bed  
In your bed, in your bed, in your bed  
In your bed, in your bed, in your bed  
In your bed, in your bed, in your bed

I can smell invasion, red excited mind  
I can see the general dropping into flaming pines  
We just plugged forever, we just saved the day  
Kiss your little self for me, everything's okay

It's okay, it's okay, it's okay  
It's okay, it's okay, it's okay  
It's okay, it's okay, it's okay
