Don't see the way  
Where I'm going  
don't cry it's better  
there's a black wall with an happy frame  
I cannot hear you cry  
There's something more in this place  
i cannot hear you screaming  
No i'm sure,i understand  
i don't hear you cry

where's my way, I want to scream more  
don't do that it's better  
I'll kick, I'll hit this wall  
and welcome to

and welcome to  
my fake world, do you want to escape from my  
Mind you want my control, destroy this world  
Run away from this black box tonight

and some sad voice, far away from here  
there are only screams tonight  
it seems like a crying  
far away from here  
i can't hear cry tonigh

where's my way, I want to scream more  
don't do that it's better  
I'll kick, I'll hit this wall  
and welcome to

and welcome to  
my fake world, do you want to escape from my  
Mind you want my control, destroy this world  
Run away from this black box tonight
