I want to fly into deep of your eyes
smelling yeah the fragrance of life
and I want to caress your hair
smiling happy to the sadness of sun

I miss you
you've gone far away from me
but I'm here for you
you left me all alone
only with a dream of you
and I'm waiting
waiting for you

you walk through the streets of my dreams
singing to me some sweet words
you remain in my mind all day long
I love you J

I miss you
you've gone far away from me
but I'm here for you
you left me all alone
only with a dream of you
and i'm waiting
waiting for you

I miss you
