I'm sure you're smiling in this moment  
your eyes are shiny stars  
I'm missing you my little Nancy  
Why are you so far?  
Always remember that I love you  
It makes me feel so good  
I'm missing you my little Nancy  
Why are you so far?  
And I'm waiting for you  
I am looking to the sky  
Ain't no stars with me tonight

And I'm waiting for you  
Feel so lonely under the sky  
There is only me and the moon  
Nancy don't cry  
Dear Nancy don't cry  
Don't cry  
Dear Nancy don't cry
